Student Profile - TIENET User Guide

Quick Reference Guide

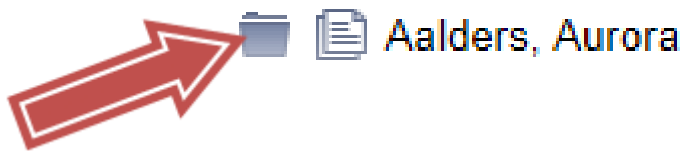

Revision Date:
July 8, 2013

The student profile contains information regarding the programming for an individual student. Information found in the Student Profile is generated from documents created in TIENET, information stored in PowerSchool or manually inputted in TIENET. The information accessible in the student profile is determined by the TIENET role assigned to the user.

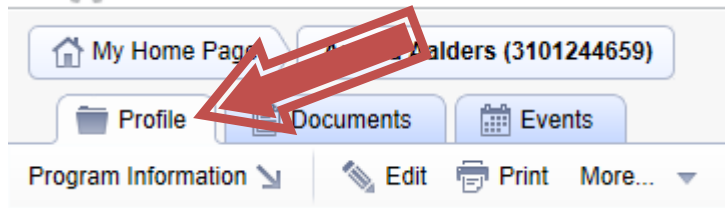

1 ACCESSING THE STUDENT PROFILE

After selecting the student, the profile can be accessed by:

- clicking on the Student Profile icon

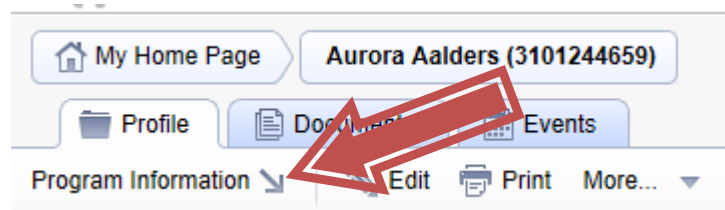

- clicking on the Student Profile tab

2 NAVIGATING THE STUDENT PROFILE

To access the information found on the different pages of the Student Profile, click the arrow next to **Program Information** (or the title of the page you are currently on) and select the page desired.
